• Email: mahmoud akram35@outlook.com

Objective:

Enthusiastic Front End Web Developer, recently graduated from MTI University with valuable internship experience at Tarek Nour Communication. Eager to contribute technical skills and creativity to a dynamic team.

Education:

• Bachelor of Computers and Information in Information systems from MTI University, 2023.

Internship Experience:

- Web Developer Intern | Tarek Nour Communication
- Implemented responsive design solutions
- Gained hands-on experience with (Html, CSS, JavaScript, ¡Query and Bootstrap)

Skills:

- Proficient in HTML, CSS, JavaScript, jQuery and Bootstrap
- Responsive web design
- Problem-solving and debugging skills

Projects:

- 1. Pulse Tele-Health Platform
- Pulse is digital platform that enable remote healthcare services, allowing patients to consult
 with healthcare professionals through features like video consultations, secure messaging,
 appointment scheduling, electronic prescriptions, remote monitoring, and access to medical
 records. These apps enhance accessibility, convenience, and efficiency in healthcare delivery,
 especially in situations where in-person visits are challenging.
- Technolgies: MERN-Stack (MongoDB, Express.js, React.js and Node.js).

2. GameX:

- An E-sports Web site that streams online matches, sale hardware components and anything related to E-sports.
- Technolgies: (Html, CSS and JavaScript).

3. ReelVision-FrontEnd:

- Discover movies and series seamlessly with this front-end website. Crafted using HTML, CSS, JavaScript, and jQuery, it offers dynamic content loading, interactive search, and a responsive design. Contribute to the front-end development, explore the cinematic world, and enjoy an optimal viewing experience on any device.
- Technolgies: (Html, CSS, JavaScript and jQuery).
